Scenario # 1

Customer: and what if I do have loans?

Guiding Answer

It tells me something about problems you may have had in managing your business needs.

Customer: and what will you about those problems?

Guiding Answer

Normally we take a holistic view. Consider everything. And see if there are any other ideas we can suggest to you.

Customer: and what if you cannot?

Guiding Answer

Still it is better to think through all options and be clear that you have left no stone unturned.

Scenario # 2

Customer: if I answer your question are you going to help me?

Guiding Answer

It depends on the facts. If you share more I can at least judge something about the situation
